

INTERIOR WOOD DOORS

DSA • MASTER CRAFTED DOORS

INTERIOR DOORS

Bring DSA's master craftsmanship indoors with our new line of solid core Interior Wood Doors. The 8' tall interior doors are available in six different contemporary styles, with four wood veneer options: **Primed HDF, White Oak, Mahogany, or American Walnut.**

Our pre-hung doors feature finger-jointed, laminated jambs with kerf-mounted bubble seals. This design helps prevent door slamming and enhances acoustic dampening and temperature regulation between rooms.

Sound Insulation

Our thicker, solid core interior doors muffle sound more effectively than hollow core doors.

Everyday Luxury

DSA's high-quality interior doors offer an everyday sense of luxury and refinement.

Lasting Durability

Carefully crafted with a solid wood engineered core, DSA's interior doors are built to last.
